

Digital Literacy Awareness Quiz

1 response

[Publish analytics](#)

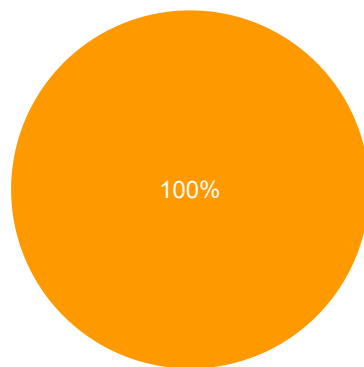

A brief quiz designed to assess and enhance digital literacy skills, focusing on online safety and collaborative tools for students.

Untitled title

1. Which of the following is the most secure method for managing multiple online passwords?

 Copy

1 response

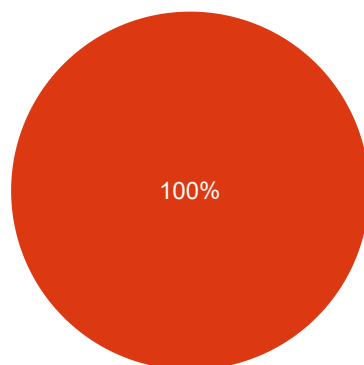

- ☐ Writing them in a physical notebook.
- ☐ Using the same password for all academic and personal accounts.
- ☒ Using a reputable digital password manager with a master key.
- ☐ Saving them in a plain text file on your desktop.

2. When collaborating on a Google Doc, which "Sharing" setting allows a peer to suggest changes without deleting your original text?

 Copy

1 response

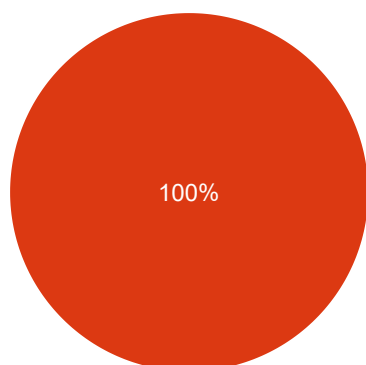

- ☐ Viewer
- ☒ Commenter
- ☐ Editor
- ☐ Owner

3. What does the "Incognito" or "Private" browsing mode primarily do?

1 response

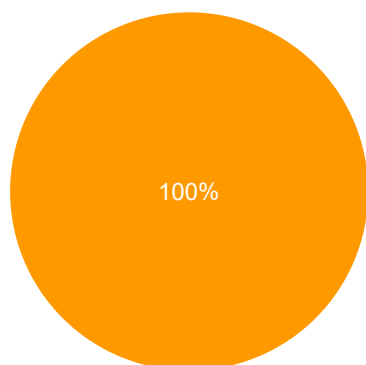

- ☐ Makes you completely invisible to your Internet Service Provider (ISP).
- ☒ Prevents the browser from saving your history, cookies, and form data locally
- ☐ Protects you from downloading viruses or malware.
- ☐ Encrypts your data so hackers cannot see your activity.

4. You receive an urgent email from "IT Support" asking you to click a link to "verify your account" or face deletion. This is likely an example of:

1 response

- ☐ A System Update
- ☐ Digital Literacy
- ☒ A Phishing Attack
- ☐ Cloud Synchronization

5. Define "Digital Footprint" and provide one example of how it can impact your future professional career.

1 response

A digital footprint is the unique trail of data you create while using the internet, including social media posts, comments, and website visits. It can impact a career because many employers and internship coordinators now screen a candidate's online presence to assess their professionalism and character before hiring.
